Pain, opioids, and addiction.

Dr. Don Teater, Owner: *Teater Health Solutions*

From 2013 to mid-2016, Dr. Teater worked as Medical Advisor at the National Safety Council addressing the national epidemic of opioid abuse, addiction, and overdose. He was lead facilitator for the expert panel discussion during the development of the CDC Guideline for Prescribing Opioids for Chronic Pain — United States, 2016.

Since June 2016, Teater has worked for *Teater Health Solutions* to concentrate on educating prescribers and others on the science of opioids and how that should influence treatment and policy decisions. Currently he contracts with the Center for Disease Control on the academic detailing of prescribers to educate them on the appropriate use of opioids for the treatment of pain.
