**Guest Speaker: Angimar Rodriguez & Amanda Erickson/Blue Cross Blue Shield-HCIC** – Flyer Attached. Amada Erickson – Opioid Care Management Team. Identify high risk people, offering support as they integrate back into the community. Helping individuals with a successful recovery. Sit in with Utilization Management. Offer recommendations to continued care and a health care plan. Look at discharge plan when their recovery goals have been maintained for a year. Help with Care Plan, consult with Care Manager that is an RN. Could take as little as 5 days to form an addiction. Care plans are updated every 6 months unless there has been a change, IE: ER Visit. Average 60 referrals from the jail per month. Help with overall care of individuals to Health Professionals. Follow up process usually includes contact to the point of contact (usually at the home) for each individual. Discussion on a plan or maybe something different that would work for each particular case. Possibly an opportunity for Lucy to work with some of these individuals. They are ok with more referrals. Want to help those in need, no matter the amount of people they have. Mat101 training, they can assist with that as well.
